

Our 2023 Spotlight Sale Consignment-

***B Tempo Aquila Frozen In Time ET AA2333167**

Quite simply, Frozen is the best and most special Spotlight Sale animal we have ever consigned. He is the last kid from Living Free. Using advanced reproductive technology, Frozen is the result of a terminal IVF and frozen embryos from Living. From 40 ova resulting in eight embryos, he is the only live kid to be born. Yet, he was worth it all. He is stunningly beautiful, and has a power packed and proven pedigree. He was born to walk a world class stage and is a perfect opportunity for a syndicate.

Frozen's Dam, the incomparable

Living was truly breathtaking. Her foreudder and area of udder attachment were so dramatic that many people missed her incredibly correct general appearance, from her front end assembly right down to her feet. She finished her GCH as 2 year old in California shows, winning her last leg at REDGA. She then went on to win every major show available, from District Specialties, to OR and WA State Fairs, and on to the National Show. Only two does would defeat her after she turned four, Tetrazzini and Living's paternal sister, FreeHand, dam of Handyman. Not many people realize Living won most of her major shows and scored FS95 after a severe injury as a 4 year old in which she broke her back and had to relearn how to walk! Not only did she show, she also milked well, and won Total Performer as well, while showing with only 10 hours of milk at the 2013 Nationals only weeks after her injury. Calm, yet determined, Living's work ethic and grit were as amazing as her records.

Frozen is linebred on two amazing sires!

SG++*B TEMPO AQUILA YUKON JACK

One of the most successful sires of our time, Jack is the most influential sire in Frozen's pedigree. Jack has 19 champion progeny (prior to NG, there's at least 3 more now!). He has been twice National Show Premier sire and his daughters include two National Champions, one Reserve National Champion, two National Total Performers and several class winners. Jack has 28 daughters in 14 herds across 10 states with a final LA average of FS89.
